## Know The Game

A mouthguard is an essential piece of equipment in any contact sport. Custom made mouthguards are fitted to the individual's mouth providing a perfect fit, allowing easy breathing and offering some protection for teeth and gums. If you are serious about sport, then you need a serious mouthguard. Knowing that you are protected by the best equipment gives you the confidence to give 100% when playing your sport.

## Know The Facts

Acorn manufacture high quality, FDA approved, high impact materials, right here in the UK and are widely recognized in the dental industry for our mouthguard materials, the quality and choice we offer is second to none. If you've ever seen a unique, eye-catching mouthguard, chances are that it was originally conceived and designed by us!
